

## **BIM Basics for Contractors**

**Learn BIM concepts, benefits and strategies in 75 minutes!**

---

**Date:** Thursday, Feb. 25, 2010

**Time:** 11 a.m. (ET) / 10 a.m. (CT) / 9 a.m. (MT) / 8 a.m. (PT)

**Length:** 75 Minutes

**Speaker:** Laura E. Handler, LEED AP, director of virtual construction, Tocci Building Companies

**Registration Fee:** \$99

**Register Now:** <http://eo2.commpartners.com/users/abc/register.php?id=6537>

### **WEBINAR DESCRIPTION**

This webinar will introduce the key concepts and benefits of using building information modeling (BIM), as well as explain important steps to take when implementing BIM in your company. Through discussion and demonstration, you will learn BIM-enabled coordination, schedule visualization and optimization (4-D), quantity extraction and cost engineering (5-D), and direct-from-model prefabrication and execution. Hear notable examples and lessons drawn from Tocci Building Companies' four years of leading BIM adoption, as well as case studies from some of Tocci's key BIM-enabled subcontractor partners.

### **WHAT YOU WILL LEARN**

This timely webinar is designed to help you:

- understand the basic concepts and benefits of BIM
- identify the variety of ways BIM can be used in your company
- gain the knowledge to jump-start BIM implementation in your company

### **WHO SHOULD PARTICIPATE**

This webinar is designed for contractors and construction professionals with the following titles:

- Project Managers
- Project Superintendents
- Estimators
- CAD/Fabrication Managers

**Register Now:** <http://eo2.commpartners.com/users/abc/register.php?id=6537>
